THE COMING RACE.

A Short Chat with Jimmy Manton, the Trainer of the Champion.

An Intelligence reporter met Jimmy Manton and Eddie Clator on Market street last night, and noted the clear, trim and healthy countenance of the latter, who is to race on Monday.

Addressing Eddie the reporter asked him how he felt.

"First rate," said he.

"Getting in some good practice work?"

"Yes, I'm rowing some," he replied with a suggestive smile.

"Clator is reserved, and don't talk much," apologetically remarked Manton as Clator rolled out.

"And he is a good sign, isn't he?"

"Yes; these fellows who are always blowing don't amount to much."

"Clator has confidence in himself then?"

"He's cool and self-possessed, isn't he?"

"And he is the betting going on?"

"Well, I haven't heard of any bets being made yet," replied Jimmy. "The truth is that I believe two to one will be offered on him."

"It is the impression that he will take the cake?"

"Yes, that's the way some look at it—and again some don't."

"Well, self-possession is a good thing in an armorer."

"I can't think that if he had been given a number of brandy before he started to row with Cochran several years ago that he would have won that race?"

"There's no doubt about it. I know of two or three armers that shake like a leaf when they have to start on a race."

"But he didn't need no stimulants?"

"Not a bit, only what he has in his muscles."

Interest in this race is growing every day. It is a tremendous race, the fellow while Clator is not tall and is somewhat thin. One is a hunk of beef and the other a strip of gristle.

With no opinion as to the probable result of this race, the reporter calls to mind the fact that Sullivan, the Irish giant, was whipped, and badly too, by smaller men. It must be remembered that bulk is not always a sure indication of either muscle or endurance. A man may have a very small arm and yet the quality of his arm is so good that he will exhibit greater strength and endurance when called upon than one double its size.

Boli has rowed three races thus far. His profession is that of a steamboat pilot and his home is at McKeesport.

The fellow in the last race seems general. It will be a contest of merit and muscle and will therefore excite more than usual interest. It will also probably stir up boating matters here and the possibility of further races will be a possibility in the future. In this direction has been racing for some time heretofore and it is surmised that this race will be the opening wedge that will put a gloss on lots of spoon races.

THE FAIR GROUND.

A Visit to them Yesterday, and What We Found there.

In company with Colonel Philo Kimbrey we visited the new State Fair Grounds yesterday afternoon, and found everything progressing satisfactorily. The enclosure has been partially completed, but on account of the failure of the contractors to carry out their contract, another party has been engaged to do the work, and by the last of next week this job will be done and the grounds enclosed. The foundation for the exhibition building has been about completed, and the superstructure will go up immediately. The building will be a grand affair, and will be a credit to the city. It will have a seating capacity of 2,500 to 3,000. It will be 200 feet long by 30 feet wide. A large force of men is at work removing the soil from the track and leveling the ground. The track will be a half mile long, and it is claimed that it will be one of the very best in the Union, as it is intended to have it in perfect order before it shall be used at all. Mr. Robert Campbell, of the Board of Directors, has been very active in the matter, and is giving his unremitting attention, and it is owing to his labors that we have progressed as well as we have. Mr. O. informed us that the track would be ready for use by the first of August. He also said that a large double stable would be built on the grounds, and that the grounds were ready for occupancy they will stand second to none in the west. The wisdom of the selection of these grounds every day becomes more apparent, and from all indications the new State Fair Grounds in West Virginia will be a gratifying success.

Since vitality or nervous strength is endangered most especially by the use of Feltz's Kidney Pills, it is the remedy calculated not only to mitigate the violence of wasting diseases, and induce a rapid recovery, but also to protect such as are from being attacked by epidemic miasmas.

INDIVIDUAL ITEMS.

Prominent People Here and Thereabouts.

Hunter Smith still lingers in this city. Captain Ed. Anschütz is in the city for the summer.

George E. Onw and wife left for Elgin yesterday to spend the summer.

Mr. and Mrs. George Wise left yesterday for the mountains.

Frank T. Wills, Pittsburgh, the popular young pillar of fiction, is in the city.

Edward Clevy, representing C. W. Robinson & Co., of Philadelphia, is at the New-Edwards.

Mrs. John H. Miss Ida and Master Walter Hall, of Fourteenth street, are at Cranberry.
